Dear Bobby Langham,

Thanks for the SASE and for your expression of your feelings about what happened to us.

A rather larger percentage of the people who write me now make it a point to tell me that they had not been born when JFK was assassinated or were then very young.

I think it is fine and important that younger people in particular are so interested.

What was cut out of Case Open when it was published, most of it by far, went into the failure of the media.

I do that to a great extent in NEVER AGAIN! which as of my last information, after being long delayed, is to be in the stores this September.

Selections from Whitewash and Case Open were published commercially. That is the publisher who is to do NEVER AGAIN! They should be in the stores. The King book you refer to is a reprint of my Frame-Up.

The price list you requested is enclosed.

Best wishes,

Harold Weisberg
